

FCC - I have enjoyed the regional and national FM radio stations KLOVE and AIR1 for years. I only regret I cannot currently listen since I am too far from a translator. With the great positive impact that these and like stations have, I would be saddened to hear that they had been forced off the by LPFM broadcasting. These 2 radio stations provide positive and encouraging, quality programming which is nearly impossible to hear anyplace else. Please allow these and others to continue to provide valuable community service. Thank-you.
